MAGNA VISUAL

MAGNETICALLY ATTRACTIVE COMPOUND

MAKES A MAGNETIC DISPLAY BOARD
OUT OF ANY SMOOTH SURFACE

MAGNETIC CONTROL BOARDS BY THE GALLON

Magnetic display area made by applying L-50 compound directly to the wall surface.

MAGNETIC BOARDS—WITHOUT STEEL!

Now the flexibility of magnetic display obtained simply by coating a smooth surface with Magna Visual L-50 compound. This unique paint contains a ferrous compound that provides permanent attraction to magnets. It is like painting with liquid steel.

Apply gray L-50 to ordinary hardboards, paperboard, old chalkboards, foam-boards, or right on a wall. It produces a magnetic display area without the weight and cost of heavy steel panels. A coat of one of our chalkboard topcoat paints makes the same area a good chalkwriting surface.

One gallon of L-50 Gray will treat 60-70 sq. ft. One quart of T-10 Black or T-15 Green chalkboard topcoat paint will add a chalkboard finish to the same area. Attraction to magnets is permanent.

Adds a new dimension to visual presentations. Saves time and money for schools-industry-government.

SPECIFICATIONS

MAGNA VISUAL L-50 COMPOUND – Gray

Two-component paint with water base system
No solvents needed. Shelf-life, unmixed, indefinite.

Application: Spray, brush, or roller. Use right from can, after mixing. stir often when painting.

Coverage: One coat covers 200-250 sq. ft. 3 coats minimum needed for magnetic attraction.

Drying time: ½ hour between coats.
Use of plastic magnets recommended.

CHALKBOARD TOPCOAT PAINTS

T-10 Black and T-15 Green

One component oil-base paint.

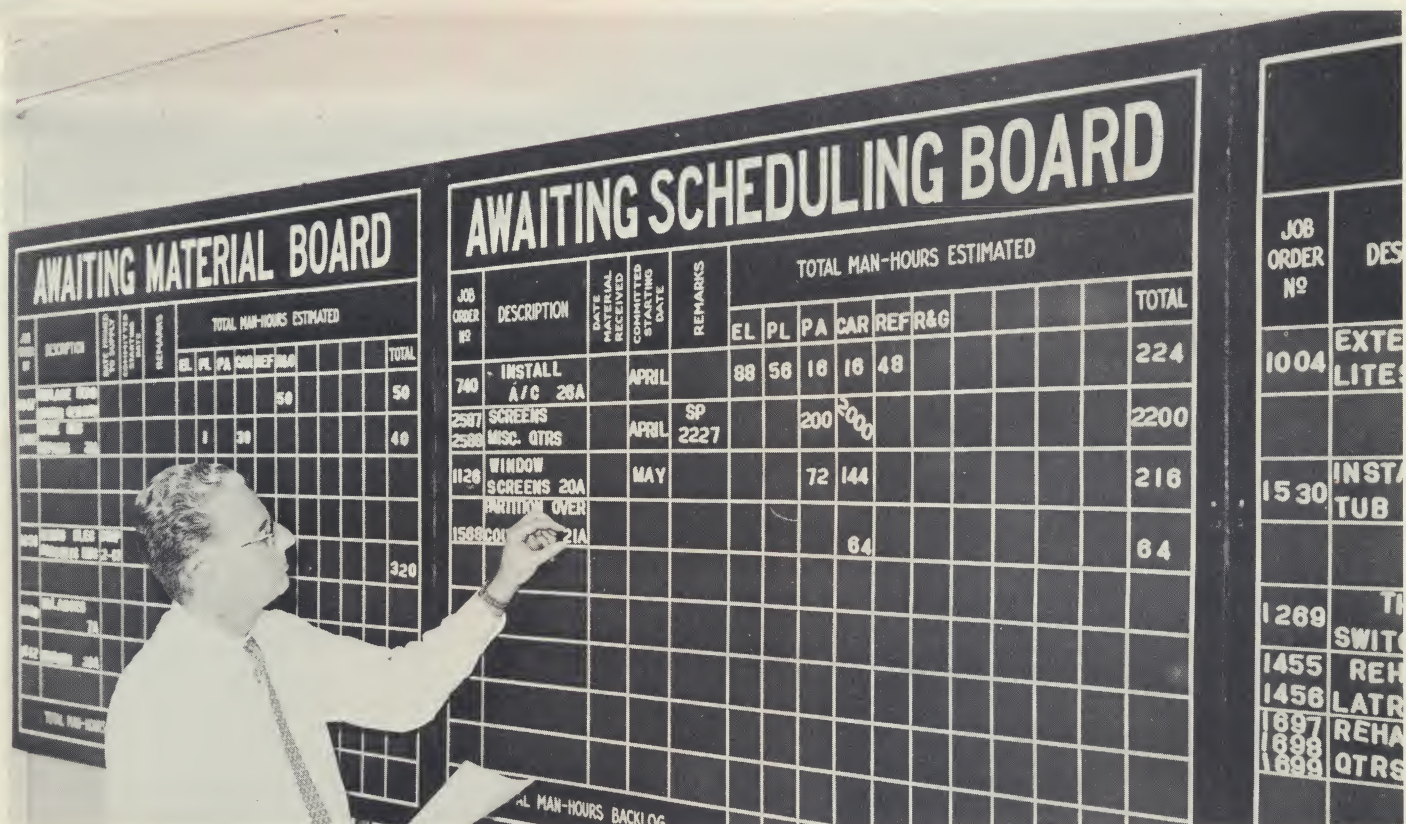

Application: Spray, brush, or roller. Use from can after stirring.

Coverage: One quart covers 60 to 80 sq. ft. One coat needed over lightly sanded L-50 surface.

Drying time: 24 hours before using.

A man in a military uniform, likely a pilot or navigator, is pointing at a large map mounted on a wall. The map shows a geographical area with various markings, including what appears to be a coastline and several small icons representing aircraft or ships. The man is wearing a dark uniform with visible insignia, including a pilot's wings and a pilot's emblem. The background is a plain wall with some additional markings or diagrams.

Sales territories, truck and travel routes, equipment locations, weather, and many other variables are controlled with similar Magna-Chart systems.

The image shows a close-up of a military aircraft's maintenance logbook. The logbook is divided into several sections, each with a specific heading. The top section is titled 'AIRCRAFT DAILY STATUS' and contains a grid for recording flight data. Below this are two sections titled 'CALENDAR INSP DUE DATES' and 'CALENDAR REPLACEMENT DUE DATES', which are used for tracking inspection and replacement schedules. The bottom section is titled 'ENGINE DATA' and contains a grid for recording engine performance and maintenance activities. The logbook is filled with handwritten entries, including dates, times, and descriptions of maintenance work performed. The handwriting is in black ink and is clearly legible. The logbook is bound in a dark cover, and the pages are white with black grid lines. The overall appearance is that of a well-used and organized record-keeping system.

SPECIAL BOARDS AND GRIDDING

Prompt quotations made. Please send sketch giving dimensions, column headings, and brief description of use for analysis and proposal.

Subtract 2½" in each direction to find usable surface of framed boards. Outside dimensions are listed above.

PRICE LIST FOR MAGNA VISUAL COMPOUND

L-50 Gray is the magnetically attractive compound that makes a surface able to hold magnets. If a chalkboard finish is desired, a topcoat of our chalkboard coating is required. If the board is not to be used for chalkwriting, or will be covered by maps or regular paint, L-50 does the complete job.

No. L-50 Magna Visual Gray Latex Compound GALLON - \$13.00 QUART - \$ 4.50

MAGNA VISUAL TOPCOAT CHALKBOARD FINISHES

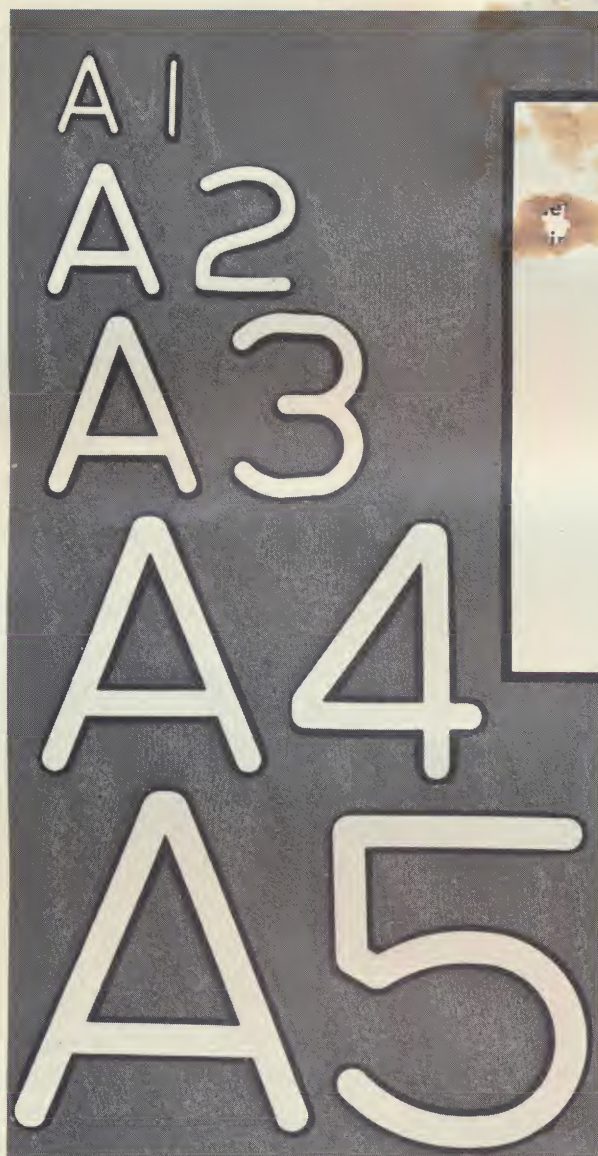

One coat of these chalkboard finishes will complete a magnetic chalkboard when applied over our L-50 basecoat. These topcoats are not magnetically attractive by themselves. They can be used for a non-magnetic chalkboard finish if desired.

No.	Description	Quart	Pint
T-10	Black Topcoat Chalkboard Paint	4.00	2.50
T-15	Green Topcoat Chalkboard Paint	4.00	2.50

MAGNA VISUAL MAGNETIC LETTERS AND NUMBERS

These beautiful letters are molded from our unique magnetic plastic. Each letter is actually a complete, semi-flexible magnet. Characters fit snugly to any steel or magna-treated surface-cling tightly for days-months-years – the magnetism is permanent.

No lettering system is so fast and easy to change as this magnetic one. When used with our other charting accessories, these characters save time and add efficiency to any changeable chart or display.

Six bright colors available. Letters are painted on top surfaces, with charcoal sides to give striking dimension. Lasting beauty for an amazingly low cost. Sold in boxed sets as listed.

MAGNA-GLO DIE-CUT MAGNETIC LETTERS & NUMBERS FOR CHANGEABLE SIGNS SALES MESSAGES

Colorful MAGNA-GLO letters are die-cut from fluorescent cardboard, with a plastic facing. Permanent magnets glued to the backs to make the letters cling to any ferrous surface.

Bold display at economy prices. Fluorescent colors stand out, and even glow when exposed to a blacklight lamp.

Colors: Lime, Chartruese, Orange, Red – Specify on order.

CUSTOM MOLDED TRADE MARKS — A Unique Advertising Specialty

For a modest cost we can reproduce company trademarks or logos in our magnetic plastic, in up to two colors. These handsome, three-dimensional parts make useful business gifts. A magnetic logo will hold messages on steel desks, notes on dashboards, or shopping lists on refrigerators. For a prompt price quotation, send a copy of your trademark and the quantity desired.

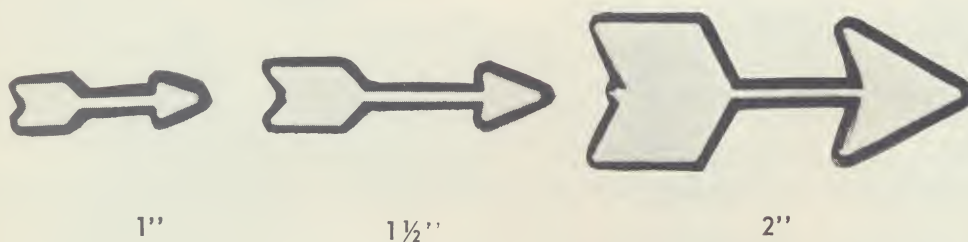

MAGNA CHART SYMBOLS AND POSTING INDICATORS

Injection molded in our permanently magnetized plastic. Standard work flow symbols offer the simplest method of charting flow of work and material. Good for programming EDP machines as changes can be made quickly and easily. Use on any steel surface. Five shapes — six colors give wide possibilities for coding of posted information on scheduling and planning boards. Sold in sets of 20.

MAGNA RIBBON – COLORED MAGNETIC STRIPS – 2 1/2' STANDARD LENGTHS

Flexible magnetic strips available in six colors. Narrow widths for organizational charts – flow lines – PERT activity lines. Wider sizes for posting information on all types of control boards. Can be written on with Magna Markers and wiped clean for re-use. Damp cloth wipes clean. Gum eraser or Magna Eradicator takes off any stubborn ghost marks.

Use in bargraphs – maps – to hold notes on bulletin boards – emphasis lines on signs.

F-106	Large Holder with knob	.30

MAGNETIC HOLDER FOR CHALK OR PENCIL

Flexible sleeve holds either chalk or pencil. Keeps it in handy spot on magnetic board – cabinets – icebox. Use to keep pencil on dash-board.

No. H-1 .25 ea.

MAGNETIC CHALK ERASER

Foam-type eraser with magnet attached to keep it where you need it.

No. H-2 .35 ea.

MARKING PENS

Water soluble marking pens can be used on Magna Ribbon and other accessories. Wipes clean with wet cloth. Gum eraser or Magna Eradicator removes any ghost marks.

No.	Item	Price
ML-3	Red Marking Pen	.75
ML-7	Black Marking Pen	.75
ML-1	Magna Eradicator (For cleaning ghost marks from Magna Ribbon)	1.75

DATE LINE

Essential for any chronological scheduling board. Bright red vertical line shows the current date clearly – gives quick visual check on whether schedules are being met. For PERT – Production and order scheduling. 4 ft. standard length – easily adjusted to any shorter length.

No. DL-4 – 4' Date line – Red – 1.50

PLASTIC POSTING CARDS

Rugged plastic sheets can be written on with marker, or even typed on and wiped clean for re-use. Magnets can be removed and stuck back on many times. Big 8 1/2 x 10 1/2 can be cut to any desired size. Ideal for organizational charts scheduling, cut-out shapes. Furnished one side polished, and one side matte finish.

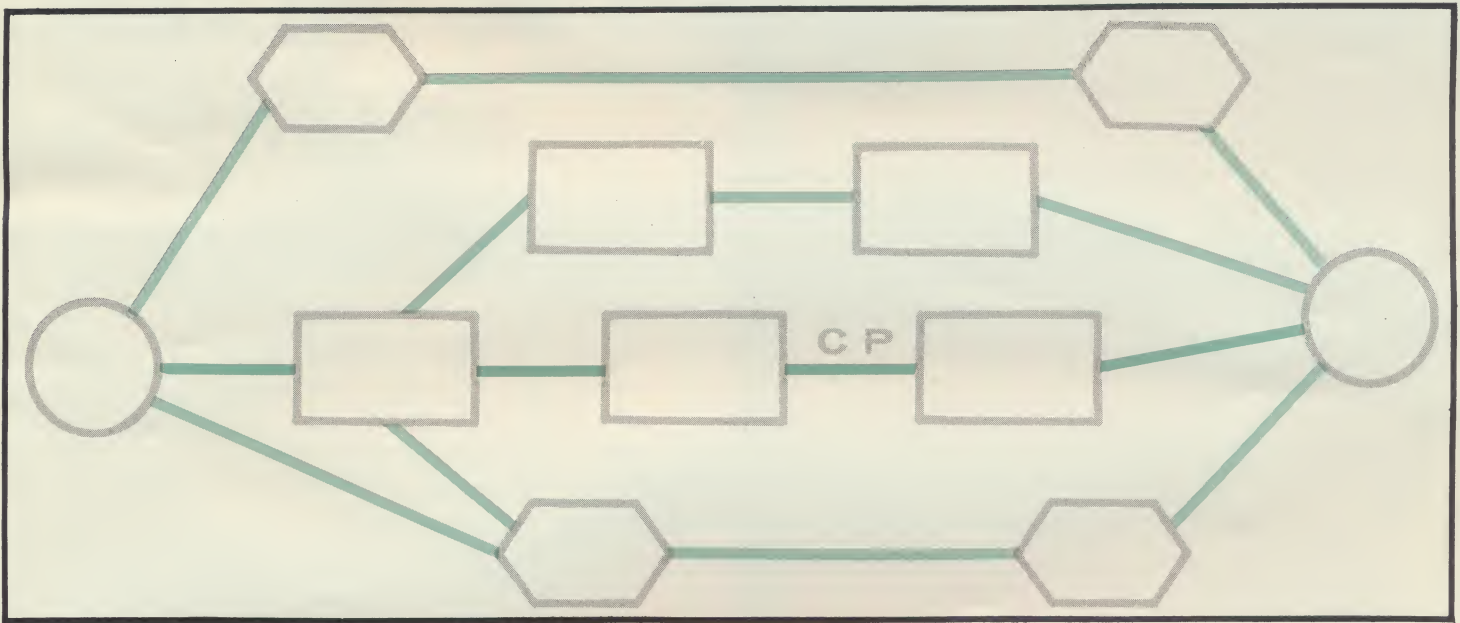

Each set contains 8 big 8-1/2 x 10-1/2" plastic sheets and 72 magnets.

Price: \$5.00/set – order by set number

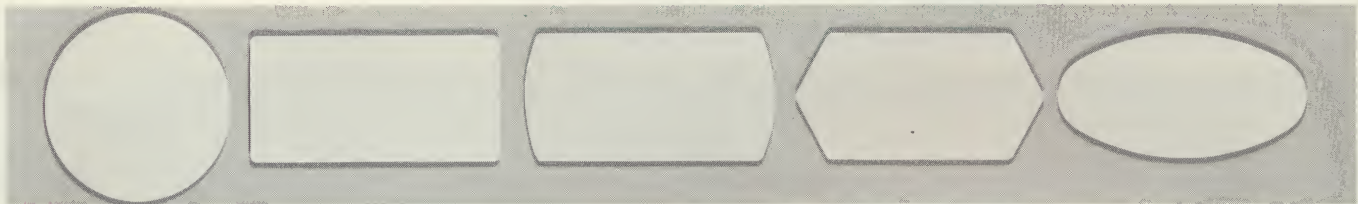

PROGRAM EVALUATION REVIEWING TECHNIQUE

THE MOST COMPLETE AND FLEXIBLE MAGNETIC SYSTEM AVAILABLE

Magnetic event symbols and activity lines allow easy adjustments in a Pert network. All symbols are permanently magnetized. Data can be placed on symbols with water soluble markers and wiped clean for re-use. More detailed data can be typed on special data cards and then wrapped around symbols. Each data card will take up to seven lines of type. Magna-Chart Pert systems are in use in leading government and industrial firms all over the country. See section on boards and magna ribbon for additional Pert materials.

TEMPLAN

PLAN-N-PRINT KIT

Visualize your ideas for space planning quickly, and get an immediate reproduction of the plan with Templan. Place true-scale magnetic templets in various arrangements until the best space utilization is obtained — then in minutes, the built-in printer produces as many permanent prints as needed. The Templan system saves hours of drafting time, and gives a sound, graphic basis for making decisions.

Choose from thousands of stock templets, or let us prepare custom designed templets to your order. Prints of these magnetic templets show actual dimensions.

Invaluable for planning office layouts, plant space, work flow patterns, use of space in schools, hospitals, stores; as a visual sales tool for machinery and equipment salesmen, builders, interior decorators; for producing charts and training aids (special prints can be used for projection). Plan-n-Print is widely used in government agencies.

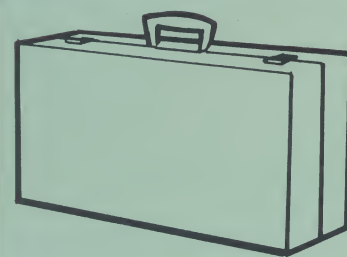

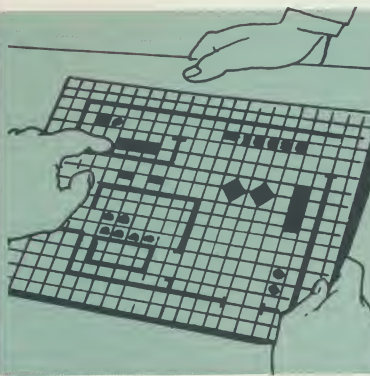

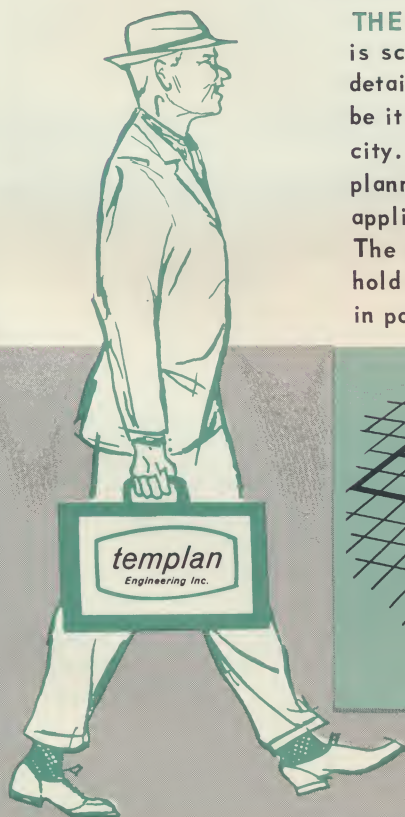

ONLY TEMPLAN PLAN-N-PRINT KITS GIVE YOU BOTH PLANNER AND PRINTER IN ONE

THE GRID, or layout board, is scaled to reflect in precise detail any designated area, be it one room or an entire city. The space requiring planning is defined by easily applied removable tape. The grid is sensitized to hold magnetic templets firmly in position when in use.

TEMPLETS are custom designed magnetic reproductions of any type equipment scaled to exact specifications. Templets are made of translucent vinyl to permit photo copying. Templets are easily moved about the grid until the proper space plan is developed.

UPON determination of a suitable plan, the case lid is closed and as many permanent, professional copies as needed are made in a few moments. TEMPLAN'S portability allows its usage anywhere, at any time.

Templan Plan-N-Print Kits are portable and compact — complete in one package. You can take one with you — anywhere!

MAGNA-CHART MATERIALS AND TEMPLAN KITS AVAILABLE ON GSA CONTRACT

All items listed in this catalog are included in the GSA listing. You may obtain a copy of the special GSA catalog from Cooper-Trent, Inc., Wilson Blvd. and Danville St., Arlington, Virginia, or from Cooper-Trent c/o the Magna-Chart dealer in your area. Your local dealer can give you complete service under the GSA contract.

MAGNA-CHART SYSTEMS

There is a *stocking distributor* near you, or will be soon. Write for the name of the distributor in your area.
